# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW

### Overview

The Group is principally engaged in providing civil engineering services in Hong Kong as main contractor.

The engineering works undertaken by the Group are mainly related to (i) roads and drainage (including associated building works and electrical and mechanical works); (ii) site formation (including associated infrastructure works); and (iii) port works (including barging facilities for marine logistics of construction materials). The Group undertakes engineering projects in both public and private sectors and, being a main contractor, participates in the procurement of materials, machineries and equipment, selection of subcontractors, carrying out on-site supervision, monitoring work progress and overall co-ordination of day-to-day work of the projects.

As at 30 September 2022, the Group had eight projects in progress, and several completed projects yet to receive the final contract sum, with a total estimated outstanding contract sum and work order value of approximately HK\$1,024 million.

The diversified coal transshipment business of the Group through its 20.3% owned One Belt One Road project in Pakistan continued to bring positive return to the Group. During the six months ended 30 September 2022, the Company's share of profit of the project was approximately HK\$6.7 million (2021: HK\$5.7 million).

## FUTURE OUTLOOK

The Group has been fortunate in this current interim period to derive fruitful profits as a result of the stepping into the harvest stage in several key construction projects, with an increase in revenue of 28.4% and net profit of 24.1% over the same corresponding period in 2021. However, with the increased revenue, as mentioned in the last annual report, the Group is already working at its full capacity, and in addition, anticipating a more difficult market environment in 2023, it will be a great challenge to achieve the same financial result in the coming year. In particular, challenges like shortages of manpower will continue to pose obstacles to the civil engineering industry.

On a brighter note, the Government has reiterated its commitment to infrastructure works and announced the average annual capital works expenditure would exceed HK\$100 billion from 2023 to 2027, according to the 2022–23 Budget. The Group, with the committed outstanding works on hands, is confident with its prospects for the next few years and the Group will also actively participate in project tenders.

The One Belt One Road project in Pakistan, which the Group owns 20.3% of, has commenced its fourth coal transshipment operation season since September 2022. The coal demand by the power plant is constantly being reduced due to the soaring price of the imported coal as a result of big drop in global mining activities during the pandemic, coupled with high sea freight in the post-pandemic economic revival. As a result, the volume of coal transshipped dropped comparing to the same period in prior year. However, the financial effect on the decrease in volume of coal transshipped was offset by an increase in charter hire income. Overall, the Group's share of profit in an associate amounted to approximately HK\$6.7 million during the period ended on 30 September 2022, representing an increase of approximately 17.4% as compared to approximately HK\$5.7 million in the prior period.

Despite the Group's safe and sound cash flow and liquidity with low gearing ratio, the Group will be more cautious on any new investment amidst the recent deteriorating global economic situation. The Group will strike a balance between the risks and rewards and be prudent to safeguard its assets against the globally difficult time.

The Group will continue to explore potential business opportunities and strive its best to maximise stakeholders' returns.

## FINANCIAL REVIEW

### Condensed consolidated interim statement of profit or loss and other comprehensive income

#### *Revenue*

The Group's revenue for the six months ended 30 September 2022 was approximately HK\$234.1 million, representing an increase of approximately 28.4% from approximately HK\$182.3 million in the same period of the last financial year. This increase was mainly due to the combined effect of:

- (i) higher revenue of approximately HK\$62.4 million for eight projects in progress during the six months ended 30 September 2022;
- (ii) lower revenue of approximately HK\$14.6 million for a project completed during the period; and
- (iii) higher revenue of approximately HK\$4.0 million for project completed before 2022.

#### *Gross profit and gross profit margin*

The Group's gross profit for the six months ended 30 September 2022 was approximately HK\$43.5 million, representing an upsurge of approximately 41.0% from approximately HK\$30.9 million in the same period of the last financial year.

The gross profit margin increased from approximately 16.9% for the six months ended 30 September 2021 to approximately 18.6% for the six months ended 30 September 2022.

The substantial increase in gross profit and gross profit margin was primarily due to some projects were in several main phases which allowed the Group to recognise higher profit during the six months ended 30 September 2022.

#### *Other income*

Other income was approximately HK\$1,198,000 and HK\$1,677,000 for the six months ended 30 September in 2022 and 2021, respectively. The decrease was mainly due to the decrease in government subsidy granted by the Construction Innovation & Technology Fund during the period.

### *Other losses, net*

Other losses increased from approximately HK\$187,000 for the six months ended 30 September 2021 to approximately HK\$1,003,000 for the six months ended 30 September 2022, primarily due to the increase in fair value changes of financial assets at fair value through profit or loss during the period.

### *Administrative expenses*

Administrative expenses for the six months ended 30 September 2022 were approximately HK\$13.8 million, representing an increase of 25.4% from approximately HK\$11.0 million in same period of the last financial year. This was mainly attributable to the increase in administrative staff costs and legal and professional expenses.

### *Finance costs*

Finance costs consisted of the bank loan interest expenses of approximately HK\$42,000 (2021: HK\$28,000) and interest expenses on the lease liabilities of approximately HK\$145,000 (2021: HK\$21,000) for the six months ended 30 September 2022.

### *Share of profit of an associate*

Share of profit of an associate relates to the Group's 20.3% interest in an associate for the provision of bareboat charter and coal transshipment services in Pakistan. The Group's share of profit of an associate for the six months ended 30 September 2022 was approximately HK\$6,715,000 (2021: HK\$5,720,000).

### *Income tax expense*

The Group recorded income tax expense of approximately HK\$5,855,000 for the six months ended 30 September 2022 (2021: HK\$2,368,000) and the effective tax rate was approximately 16.1% (2021: 8.8%).

### *Profit for the period*

For the six months ended 30 September 2022, the Group recorded net profit of approximately HK\$30.6 million, as compared to a net profit of approximately HK\$24.6 million for the corresponding period in the last financial year. The increase was mainly due to an increase in gross profit on construction projects and an increase in share of profit of an associate during the six months ended 30 September 2022.

## **Condensed consolidated interim statement of financial position**

Net assets of the Group increased by 6.5% from approximately HK\$279.1 million as at 31 March 2022 to approximately HK\$297.2 million as at 30 September 2022.

Non-current assets increased from approximately HK\$134.7 million as at 31 March 2022 to approximately HK\$139.4 million as at 30 September 2022, primarily due to the purchase of property, plant and equipment and increase in investment in an associate, arising from the net effect of share of profit of an associate and dividend received during the six months ended 30 September 2022.

Net current assets increased by 7.9% from approximately HK\$158.2 million to approximately HK\$170.7 million, primarily due to the increase in inventories, trade and other receivables and cash and cash equivalents, offset by the increase in contract liabilities, trade and other payables and tax liabilities.

### **Liquidity and financial resources**

As at 30 September 2022, the Group had cash and cash equivalents of approximately HK\$164.2 million (31 March 2022: HK\$153.3 million), which were mainly denominated in Hong Kong dollars and United States dollars. Therefore, the management of the Group believes that the Company does not have significant foreign exchange risk. The Group has not adopted any currency hedging policy or other hedging instruments. The Group will continue to monitor its exposure to currency risks closely.

As at 30 September 2022 and 31 March 2022, there was no pledged bank deposit.

As at 30 September 2022, the Group had interest bearing borrowings of approximately HK\$3.2 million (31 March 2022: HK\$4.1 million) with a repayable on demand clause. Such borrowings were denominated in Hong Kong dollars, carried at variable interest rate and had no financial instrument for hedging purpose.

The Group had available unutilised bank borrowings facilities of approximately HK\$20.7 million as at 30 September 2022 (31 March 2022: HK\$20.7 million).

## **Capital structure and gearing ratio**

As at 30 September 2022, the Group's total equity was approximately HK\$297.2 million (31 March 2022: HK\$279.1 million) comprising ordinary share capital, share premium and reserves.

The gearing ratio of the Group, defined as a percentage of interest bearing liabilities divided by the total equity, is approximately 1.1% as at 30 September 2022 (31 March 2022: 1.5%).

The Group holds a 20.3% equity interest (comprising 2,030 ordinary shares) in River King Management Holdings Limited, ("River King" and together with its subsidiaries, the "River King Group") through Rich Partner Global Limited, a direct wholly-owned subsidiary of the Company. The River King Group is principally engaged in a One Belt One Road project involving the bareboat charter hiring and transshipment of coal by vessels owned or built by the River King Group to a coal fired power station located in Pakistan. The Group's total investment in River King up to 30 September 2022 was approximately HK\$105.5 million. No market fair value was available for this private investment as at 30 September 2022. The Group invested in River King with a view to maintaining a sustainable growth and maximising shareholder return through business diversification. To that end, the Group has been actively involved in the development and operation of the coal transshipment project since its participation. During the six months ended 30 September 2022, the Group's share of profit and other comprehensive income of River King Group was approximately HK\$6.7 million and HK\$2.2 million, respectively, and received cash dividends of approximately HK\$3.2 million.

## SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *“Review of Interim Financial Information Performed by the Independent Auditor of the Entity”* issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 *“Interim Financial Reporting”*.

## 4 ESTIMATES

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements of the Group for the year ended 31 March 2022.

## 5 FINANCIAL RISK MANAGEMENT

### 5.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, cash flow and fair value interest rate risk and price risk), credit risk and liquidity risk.

The unaudited condensed consolidated interim financial information does not include all risk management information and disclosure required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 March 2022. There have been no changes in any risk management policies since the year end.

# NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (Continued)

## 5 FINANCIAL RISK MANAGEMENT (Continued)

### 5.2 Liquidity risk

Compared to year end, there was no material change in the contractual undiscounted cash out flows for financial liabilities.

### 5.3 Fair value estimation

Financial instruments carried at fair value are analysed by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices that are observable for the asset or liability, either directly (for example, as prices) or indirectly (for example, derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data.

The following tables present the carrying value of financial instruments measured at fair value in the condensed consolidated interim statement of financial position.

### 15 CONTRACT ASSETS *(Continued)*

*Notes:*

- (a) Unbilled revenue represents the Group's right to receive consideration for contract works but not yet billed because of the rights are conditional upon the satisfaction by the customers of work completed by the Group and the work is pending for the certification by the customers. The contract assets are transferred to trade receivables when the rights become unconditional, which is at the time the Group obtained the certification of the completed construction work from the customers.

The unbilled revenue recognised before the adoption of HKFRS 15 is classified as contract asset. Management considered it is probable that the customer will approve the respective variations with reference to the opinion of its legal advisor.

- (b) Retention receivables included in contract assets represents the Group's right to receive consideration for work performed and not yet billed because the rights are conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the expiry date of the period for the provision of assurance by the Group on the service quality of the work performed by the Group.

The Group classifies these contract assets as current because the Group expects to realise them in its normal operating cycle.

The carrying amounts of contract assets approximated their fair values.
